APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all prior rights. The water appropriated hereunder is flood and waste water and the permittee or his successors in interest will be entitled to use the water of this source only as it becomes available at the point of diversion. A substantial weir must be installed and maintained to facilitate the measurement of water. The State reserves the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 2.0 cubic feet per second.

Actual construction work shall begin on or before December 20, 1945

Proof of commencement of work shall be filed before January 20, 1946

Work must be prosecuted with reasonable diligence and be completed on or before December 20, 1947

Proof of completion of work shall be filed before January 20, 1947

Application of water to beneficial use shall be made on or before December 20, 1948. Proof of the application of water to beneficial use must be filed with State Engineer on or before January 20, 1948
